StudyBooster

for secondary/tertiary education

StudyBooster is a web-platform that motivates student goal setting behaviour and gives recognition to their dedication and achievement with rewards. Our program builds student self-confidence to inspire ongoing learning. Our vision is for every student to recognise their worth and feel empowered to get the very best results they can.

StudyBooster coordinates students, families and friends as a support community, with a tangible rewards program.

Students set a goal, invite sponsors, and get rewarded for achievement.

Recognition for goal achievement and intelligence promotes self-confidence and a student's intrinsic strengths that empowers them to succeed.

We support educators and education providers who work hard to improve student outcomes and maximise results. Our aim is to enable every student to take more ownership of their education, be more supported in their efforts and get rewarded for their achievements.

All Secondary and Tertiary students are welcome to use StudyBooster.

StudyBooster gives to education too, by donating to the Institution that our students attend for each and every time they get sponsored, this demonstrates our ongoing support for education into the future.

And we don't overlook those in need. We've partnered with recognised charitable organisations that provide educational support to needy and disadvantaged students. Students on our StudyBooster program can choose to share our spirit of giving by donating some of their StudyBoost dollars to those in need. It's a great opportunity to make a life-changing difference for the good of others by contributing to this cause. And we think that's fair.
